

A Possible Planning Format for Truth, Way, Life.

This format can be adapted for use as either a lesson or topic planner (series of lessons).

CURRICULUM FOCUS: e.g. Maths: Fractions; Science: The Water Cycle.

Section 1: THE TRUTH.

This section is concerned with the focus of the lesson/series of lessons i.e. what we want the children to learn. It is in two parts:

The Heart Concept. What do we want them to learn about God? *Or*
What does this topic reveal to us about God's nature?

N.C. **Factual Concepts** from the National Curriculum (Learning Intentions)

Section 2: THE WAY

This section is concerned with **HOW** you will teach the lesson(s) i.e. steps, teaching methods, resources.

It could also involve assessment of the NC facts.

Section 3. THE LIFE

This section is concerned with the **application** of the facts learnt and has three parts:

What truth(s) have I learnt about God?

How can I apply this learning to make a difference to my own life?
e.g. What can I do differently? How should I change my attitude/actions?

How can I apply it to other situations?
e.g. younger children: family/class/school
older children: community/society/world
